

HAUNOW powered by Awensa™

Everything Has Changed

Our private is cloud designed to transform the way small businesses utilize technology. Gone are the days of installing and maintaining business software within an expensive and disconnected environment. HAUNOW takes away the burdensome task of maintaining barely adequate and prohibitively expensive infrastructures; and replaces them with an enterprise class distributed network.

The Cloud Environment

Users access their applications from anywhere, at any-time and from any internet enabled computer. Streaming applications use an installer to place familiar icons on a local computer that provide a link to the data center.

Safety and Security

The data center has been certified by an independent auditor to be SAS 70 Type II, PCI, SOC, and HIPPA compliant.

- Disaster Recovery
- Full Redundancy
- 100% Uptime
- Diesel Power
- 24 Hour Security
